FOR IMMEDIATE RELEASE

Laserfiche Welcomes The Star Tribune To Its Client Roster

Long Beach, CA, May 23, 2007 --Electronic digital document management solutions provider, Laserfiche, announces today that the Star Tribune, located in Minneapolis, has signed an agreement to use its digital document management tools to help implement applications for accounts payable, human resources, travel and contracts processes. The system will be installed by Solbrekk, which provides business technology solutions to organizations.

“Some of the first projects we will be assisting the Star Tribune with are migration from a legacy document imaging system and integration with PeopleSoft,” said Larry Phelps, vice-president of Solbrekk. “We feel privileged to be working with such a competent IT staff who are enthusiastic about incorporating Laserfiche solutions for automating manual processes, accelerating the flow of critical information into business operations, reducing or eliminating the need for manual data entry, and empowering staff to use their time more effectively.”

About the Star Tribune

The Star Tribune is a news and information company serving the Minneapolis/St. Paul area. The Star Tribune newspaper is one of the top 20 largest newspapers in the nation. The company’s website, www.StarTribune.com, is the most frequently used local news and information service for the Twin Cities market. The Star Tribune is owned by Avista Capital Partners, a leading private equity firm with offices in New York and Houston.
