

Valued Customer – Oral & Maxillofacial Surgical Consultants

Left to Right - Steve Solbrack, Solbrekk President, Dr. Stephen Gulbrandsen, Debi Keckhafer, Office Manager and Bill Hafdal, Solbrekk Vice President

Oral and Maxillofacial Surgical Consultants provides procedures such as: Corrective Jaw Surgery, Dental Extractions (Wisdom Teeth), Dental Implant Surgery, Jaw Joint Therapy, etc. No matter what procedure you need they will ensure you the most comfortable and convenient experience possible.

In order to provide quality care for their patients Oral and Maxillofacial has teamed up with Solbrekk and VP of Sales, Bill Hafdal for the last ten years to take care of their IT needs. "Having Bill and KJ You, Sr. Network Engineer as an off-site out-source IT team has been a very cost effective solution." stated Debi Keckhafer, Office Manager.

In March 2004 Oral and Maxillofacial Consultants converted to Application Hosting by NetGain Technology in partnership with Solbrekk, Inc., based on Bill's recommendation. Debi Keckhafer stated "Application Hosting is ideal for our business because it enables us to save time by having NetGain/Solbrekk do one simple update instead of 27 individual updates on desktops by themselves like we did in the past. This service is easy and cost-effective for us to use and runs the same speed as normal desktop solutions."
