

Valued Customer – MedLearn

MedLearn is a privately owned company specializing in consulting, training and publications in the areas of healthcare coding, reimbursement and compliance. Their primary focus is helping their clients maintain a solid program of regulatory compliance while capturing the appropriate reimbursement from Medicare and other third-party payers. MedLearn services hospitals, clinics and other healthcare organizations nationwide.

Brian McEnaney and Chad Brinkman assist J. Evans and MedLearn with strategic planning and deployment of their IT technology plan to help them advance their business goals.

J. Evans stated “The relationship has been a true partnership to handle our IT needs. It is a relationship with mutual satisfaction, professionalism and appreciation. Brian is responsive to our needs. Chad knows our systems and processes and is a great communicator and listener. We enjoy working with Steph and really appreciate the depth of the Solbrekk field service team when Chad is not available.”

Brian McEnaney stated “I really appreciate the great communication we have with J. He is always staying ahead of the curve with advance planning. He is forward thinking and proactive.”
